WORK EXPERIENCE

Web Developer

Jan 2026 – Apr 2026

Langara College – Fine Arts Department, Vancouver, Canada

- Architected the 2026 exhibition site using WordPress CMS, leveraging custom functions.php hooks and Node.js for dynamic, high-media content delivery
- Engineered deployment on Netlify, utilizing CDN and auto SSL to ensure zero-downtime performance and high-speed asset rendering for 30+ students
- Led the transition to modern infrastructure while maintaining legacy archives on AWS EC2, handling server configuration and system troubleshooting
- Collaborated with faculty in an agile environment to manage content updates and artwork exhibition schedules under strict launch deadlines

Cloud Networking Engineer (Azure VPN)

Feb 2024 – Nov 2024

Wicresoft Software (Microsoft Outsourcing Partner), Shanghai, China

- Resolved enterprise customers' Azure VPN connectivity, configuration, and performance issues, owning cases end-to-end
- Analyzed Microsoft diagnostic tools to examine VPN logs, traffic flow, and security protocols (IPsec/IKE)
- Supported customers in troubleshooting hybrid cloud scenarios, ensuring secure VPN tunnels across on-premises and Azure

PROJECTS

jianliquankai.com – AI-Powered SaaS Resume Builder (Web)

May 2026 – Present

Lead Full-stack Developer

- Developed with Next.js, TypeScript, and MongoDB to ensure high performance and stability under concurrent user traffic
- Integrated DeepSeek API to provide localized content optimization, significantly enhancing professional quality and job matching
- Implemented WeChat OAuth and subscription payment systems, managing the entire flow from development to deployment
- Employed headless browser technology to enable high-fidelity, one-click PDF exports with 150+ customizable templates

Guardian – AI-Driven Assistive Navigation System (iOS)

Jan 2026 – Apr 2026

Frontend Developer

- Developed with Swift and Core ML, featuring an accessibility-first UI, high-contrast layouts, and a dedicated "Guardian SOS" emergency alert system
- Implemented YOLO for real-time spatial radar and obstacle detection, combined with LLMs for natural, voice-based scene navigation
- Designed high-performance services using Spring Boot, PostgreSQL, and JWT for secure user and data management
- Enhanced system reliability via Docker containerization and Amazon EC2 deployment to ensure low-latency performance in critical use cases

Clario – Freelance Project, Finance & Contract-Risk Management App

Sep 2025 – Dec 2025

Frontend Developer

- Developed a responsive dashboard using React, TypeScript, and Tailwind CSS, enabling seamless management of projects, finances, and contracts
- Created robust RESTful APIs with Node.js and Express, leveraging MongoDB for flexible data storage and Firebase for secure authentication
- Incorporated ChatGPT API for automated contract analysis and financial insights, significantly streamlining complex freelance workflows
- Streamlined build processes with Vite and managed automated deployment via Railway, ensuring high availability and rapid iteration

EDUCATION

Post-Degree Diploma, Web & Mobile App Development

Jan 2025 – Apr 2026

Langara College, Vancouver

Bachelor of Science, Biotechnology

Sep 2011 – Jun 2015

Qiqihar University, China

SKILLS

Languages: JavaScript, TypeScript, Python, Java, Go, Swift

Frontend Development: React, Next.js, Tailwind CSS, HTML, Redux, Vite

Backend & Databases: Node.js, Spring Boot, RESTful APIs, MongoDB, PostgreSQL, SQLite, Firebase

Cloud, DevOps & Infrastructure: AWS EC2, Netlify, Docker, Kubernetes, Linux, Apache

AI & Mobile Development: RAG, LLM, Core ML, Android, iOS
