PROFESSIONAL SUMMARY

Full-stack Engineer & AI Solutions Developer with a passion for building next-generation applications. Extensive expertise in integrating Large Language Models (LLM) and RAG-based systems into production-ready web and mobile platforms. Combines a deep technical foundation in TypeScript, Next.js, and Swift with cloud-native DevOps (AWS, Kubernetes) to deliver end-to-end intelligent systems. Proven ability to bridge the gap between complex AI logic and intuitive user interfaces.

WORK EXPERIENCE

Web Developer

Jan 2026 – Apr 2026

Langara College – Fine Arts Department, Vancouver, Canada

- Designed and deployed the official 2026 Fine Arts Graduate Exhibition website (30+ students, multi-angle imagery and video), deployed on Netlify with auto SSL, CDN, and zero-downtime deploys
- Integrated WordPress CMS, using custom functionality via functions.php hooks and Node.js for dynamic content
- Owned deployment, operations, and maintenance, including server-side configuration, SSL setup, and troubleshooting on Netlify and legacy AWS EC2
- Used AWS EC2 to host prior years' sites, monitoring system health and performing basic management for reliable performance
- Partnered with faculty to update exhibition content, schedules, and artwork info, meeting strict event-launch deadlines in an agile environment

Cloud Networking Engineer (Azure VPN)

Feb 2024 – Nov 2024

Wicresoft Software (Microsoft Outsourcing Partner), Shanghai, China

- Diagnosed and resolved enterprise customers in diagnosing and resolving Azure VPN connectivity, configuration, and performance issues, owning cases end-to-end
- Leveraged Microsoft diagnostic tools to analyze VPN logs, traffic flow, and security protocols (IPsec/IKE)
- Worked remotely with customers to troubleshoot hybrid cloud scenarios, ensuring secure VPN tunnels across on-premises and Azure

PROJECTS

JianliQuanKai – AI-Powered SaaS Resume Builder (Web)

May 2026 – Present

Lead Full-stack Developer

- Independent SaaS platform serving real users with AI-powered resume generation for the Chinese job market.
- Engineered a full-stack architecture using Next.js, TypeScript, and MongoDB to handle high-concurrency requests.
- Integrated DeepSeek AI API to provide localized resume content optimization, significantly improving user content quality.
- Implemented secure WeChat OAuth and subscription payment systems, managing the entire product lifecycle from development to deployment.
- Achieved a seamless user experience with 150+ customizable templates and one-click PDF export using headless browser rendering.

Guardian – AI-Driven Assistive Navigation System (iOS)

Jan 2026 – Apr 2026

Frontend Developer

- Architected iOS accessibility app using Swift and Core ML for real-time environmental awareness and hazard detection for visually impaired users
- Engineered YOLO computer vision for spatial radar and LLMs for interactive voice-based scene descriptions
- Built backend with Spring Boot, PostgreSQL, JWT authentication, containerized with Docker, deployed on Amazon EC2
- Designed accessibility-first UI with high-contrast layouts and "Guardian SOS" emergency alerts

Clario – Freelance Project, Finance & Contract-Risk Management App

Sep 2025 – Dec 2025

Frontend Developer

- Architected full-stack web app for managing projects, finances, and contracts for freelancers
- Developed frontend with React, TypeScript, Tailwind CSS; implemented RESTful APIs with Node.js and Express
- Incorporated MongoDB, Firebase, and ChatGPT API for contract-risk analysis; deployed with Vite and Railway

EDUCATION

Post-Degree Diploma, Web & Mobile App Development

Jan 2025 – Apr 2026

Langara College, Vancouver

Bachelor of Science, Biotechnology

Sep 2011 – Jun 2015

Qiqihar University, China

CERTIFICATIONS

Fundamentals of Agents

Hugging Face: LLM agent fundamentals, ReAct framework, tool integration.

AI Python for Beginners

DeepLearning.AI: Python programming for AI, fundamentals and basic ML concepts.

SKILLS

Languages: JavaScript, TypeScript, Python, Java, Go, Swift

Frontend Development: React, Next.js, Tailwind CSS, HTML, Redux, Vite

Backend & Databases: Node.js, Spring Boot, RESTful APIs, MongoDB, PostgreSQL, SQLite, Firebase

Cloud, DevOps & Infrastructure: AWS EC2, Netlify, Docker, Kubernetes, Linux, Apache

AI & Mobile Development: RAG, LLM, Core ML, Android, iOS
