PROFESSIONAL SUMMARY

Full-stack Engineer & AI Solutions Developer with a passion for building next-generation applications. Extensive expertise in integrating Large Language Models (LLM) and RAG-based systems into production-ready web and mobile platforms. Combines a deep technical foundation in TypeScript, Next.js, and Swift with cloud-native DevOps (AWS, Kubernetes) to deliver end-to-end intelligent systems. Proven ability to bridge the gap between complex AI logic and intuitive user interfaces.

WORK EXPERIENCE

Web Developer

Jan 2026 – Apr 2026

Langara College – Fine Arts Department, Vancouver, Canada

- **Web Architecture & Content Management:** Developed the 2026 exhibition site using WordPress CMS, leveraging custom functions.php hooks and Node.js for dynamic, high-media content delivery.
- **Modern Deployment Strategy:** Managed the deployment on Netlify, utilizing CDN and auto SSL to ensure zero-downtime performance and high-speed asset rendering for 30+ students.
- **Operations & Legacy Maintenance:** Orchestrated the transition to modern infrastructure while maintaining legacy archives on AWS EC2, handling server configuration and system troubleshooting.
- **Agile Stakeholder Collaboration:** Partnered with faculty in an agile environment to manage content updates and artwork exhibition schedules under strict launch deadlines.

Cloud Networking Engineer (Azure VPN)

Feb 2024 – Nov 2024

Wicresoft Software (Microsoft Outsourcing Partner), Shanghai, China

- **Diagnosed and resolved enterprise customers** in diagnosing and resolving Azure VPN connectivity, configuration, and performance issues, owning cases end-to-end
- **Leveraged Microsoft diagnostic tools** to analyze VPN logs, traffic flow, and security protocols (IPsec/IKE)
- **Worked remotely with customers** to troubleshoot hybrid cloud scenarios, ensuring secure VPN tunnels across on-premises and Azure

PROJECTS

JianliQuanKai – AI-Powered SaaS Resume Builder (Web)

May 2026 – Present

Lead Full-stack Developer

- **Full-Stack Architecture:** Built with Next.js, TypeScript, and MongoDB to ensure high performance and stability under concurrent user traffic.
- **DeepSeek AI Integration:** Leveraged DeepSeek API to provide localized content optimization, significantly enhancing professional quality and job matching.
- **Product Lifecycle Management:** Independently implemented WeChat OAuth and subscription payment systems, managing the entire flow from development to deployment.
- **PDF Rendering Engine:** Utilized headless browser technology to enable high-fidelity, one-click PDF exports with 150+ customizable templates.

Guardian – AI-Driven Assistive Navigation System (iOS)

Jan 2026 – Apr 2026

Frontend Developer

- **iOS Development & UX:** Built with Swift and Core ML, featuring an accessibility-first UI, high-contrast layouts, and a dedicated "Guardian SOS" emergency alert system.
- **Computer Vision & AI:** Integrated YOLO for real-time spatial radar and obstacle detection, combined with LLMs for natural, voice-based scene navigation.
- **Scalable Backend Architecture:** Engineered high-performance services using Spring Boot, PostgreSQL, and JWT for secure user and data management.
- **Deployment & DevOps:** Optimized system reliability via Docker containerization and Amazon EC2 deployment to ensure low-latency performance in critical use cases.

Clario – Freelance Project, Finance & Contract-Risk Management App

Sep 2025 – Dec 2025

Frontend Developer

- **Frontend Architecture:** Built a responsive dashboard using React, TypeScript, and Tailwind CSS, enabling seamless management of projects, finances, and contracts.
- **Backend Development:** Developed robust RESTful APIs with Node.js and Express, leveraging MongoDB for flexible data storage and Firebase for secure authentication.
- **AI-Powered Productivity:** Integrated ChatGPT API for automated contract analysis and financial insights, significantly streamlining complex freelance workflows.
- **DevOps & Delivery:** Optimized build processes with Vite and managed automated deployment via Railway, ensuring high availability and rapid iteration.

EDUCATION

Post-Degree Diploma, Web & Mobile App Development

Jan 2025 – Apr 2026

Langara College, Vancouver

Bachelor of Science, Biotechnology

Sep 2011 – Jun 2015

Qiqihar University, China

CERTIFICATIONS

Fundamentals of Agents

Hugging Face: LLM agent fundamentals, ReAct framework, tool integration.

AI Python for Beginners

DeepLearning.AI: Python programming for AI, fundamentals and basic ML concepts.

SKILLS

Languages: JavaScript, TypeScript, Python, Java, Go, Swift

Frontend Development: React, Next.js, Tailwind CSS, HTML, Redux, Vite

Backend & Databases: Node.js, Spring Boot, RESTful APIs, MongoDB, PostgreSQL, SQLite, Firebase

Cloud, DevOps & Infrastructure: AWS EC2, Netlify, Docker, Kubernetes, Linux, Apache

AI & Mobile Development: RAG, LLM, Core ML, Android, iOS
