WORK EXPERIENCE

Web Developer
Jan 2026 – Apr 2026

Langara College – Fine Arts Department, Vancouver, Canada

- Architected and deployed the 2026 Fine Arts Grad Show site on Netlify, leveraging custom WordPress hooks and Node.js to ensure high-performance, low-latency delivery of media-heavy content
- Managed full-lifecycle site infrastructure, including DNS configuration via AWS Route 53 and maintaining legacy archives on AWS EC2 using PM2 for process management and system stability
- Collaborated with faculty and 30+ students in an agile environment, streamlining content updates, portal permissions, and artwork submissions to meet strict exhibition deadlines
- Implemented GA4 for data-driven performance tracking, providing key engagement insights while ensuring consistent departmental branding across the modern exhibition site and historical archives

Cloud Networking Engineer (Azure VPN)
Feb 2024 – Nov 2024

Wicresoft Software (Microsoft Outsourcing Partner), Shanghai, China

- Resolved enterprise customers' Azure VPN connectivity, configuration, and performance issues, owning cases end-to-end
- Analyzed Microsoft diagnostic tools to examine VPN logs, traffic flow, and security protocols (IPsec/IKE)
- Supported customers in troubleshooting hybrid cloud scenarios, ensuring secure VPN tunnels across on-premises and Azure
- Optimized gateway configurations and routing policies to proactively prevent recurring connectivity incidents

PROJECTS

resume-right.com – AI-Powered ATS Resume Optimizer (SaaS)
May 2026 – Present

Founder & Full-Stack Developer

- Built and deployed a full-stack resume tool on Next.js, React, TypeScript, Supabase, and MongoDB over Vercel serverless infrastructure
- Integrated the LLM API to rewrite experience bullets via the STAR method and deliver job-targeted analysis, grounded in a RAG pipeline for factual suggestions
- Engineered a server-side ATS scoring engine that parses PDF/DOCX resumes and computes live match scores
- Enabled one-click PDF/PNG exports, backed by Supabase authentication and cloud resume sync

Guardian – AI-Driven Assistive Navigation System (iOS)
Jan 2026 – Apr 2026

Frontend Developer

- Developed with Swift and Core ML, featuring an accessibility-first UI, high-contrast layouts, and a dedicated "Guardian SOS" emergency alert system
- Implemented YOLO for real-time spatial radar and obstacle detection, combined with LLMs for natural, voice-based scene navigation
- Designed high-performance services using Spring Boot, PostgreSQL, and JWT for secure user and data management
- Enhanced system reliability via Docker containerization and Amazon EC2 deployment to ensure low-latency performance in critical use cases

Clario – Freelance Project, Finance & Contract-Risk Management App
Sep 2025 – Dec 2025

Frontend Developer

- Developed a responsive dashboard using React, TypeScript, and Tailwind CSS, enabling seamless management of projects, finances, and contracts
- Created robust RESTful APIs with Node.js and Express, leveraging MongoDB for flexible data storage and Firebase for secure authentication
- Incorporated ChatGPT API for automated contract analysis and financial insights, significantly streamlining complex freelance workflows
- Streamlined build processes with Vite and managed automated deployment via Railway, ensuring high availability and rapid iteration

EDUCATION

Post-Degree Diploma, Web & Mobile App Development
Jan 2025 – Apr 2026

Langara College, Vancouver, Canada

Bachelor of Science, Biotechnology
Sep 2011 – Jun 2015

Qiqihar University, China

SKILLS

Languages JavaScript, TypeScript, Python, Java, Go, Swift

Frontend Development React, Next.js, Tailwind CSS, HTML, Redux, Vite

Backend & Databases Node.js, Spring Boot, RESTful APIs, MongoDB, PostgreSQL, SQLite, Firebase

Cloud, DevOps & Infrastructure AWS EC2, Netlify, Docker, Kubernetes, Linux, Apache

AI & Mobile Development RAG, LLM, Core ML, Android, iOS
